Sentinel® IMPACT TRACKER

PRODUCT BULLETIN

Never miss an impact.

Every moment that an impacted crash cushion remains on the road is a moment that lives are at risk. With the Sentinel Impact Tracker®, you'll get immediate notification of an impact to your crash cushion without having to rely on other personnel to report it. That means you can get your response team into action right away to prevent the tragedy of a secondary impact.

01

Connect

Connect to all types of crash cushions or attenuators with ease.

02

Monitor

Monitor the status of your crash cushion with a simple, easy to use interface from any device.

03

Impact

The Sentinel transmits a signal upon impact, alerting maintenance personnel.

04

Alert

An alert is sent to multiple devices with the exact location of the impacted crash cushions.

Attenuator Monitoring + Management

With the Sentinel's attenuator monitoring and management capabilities, users are able to track and record the attenuator, end terminal, guard rail, sign or any other asset's installation date, manufacturer's make and model, site location, installer's information, impact and inspection history – all from your computer or mobile device.

MADE IN AMERICA

Sentinel®
IMPACT TRACKER

Key Features

- 24/7 monitoring of permanent and temporary attenuators
- Uses secure and reliable cellular network to send immediate notification via text and/or e-mail upon impact
- Real time reporting of incidents/impacts
- Easily attaches to most attenuators
- Tune-able to work with most common permanent and temporary attenuators
- Powered by a 5 year lifespan battery
- Weatherproof & durable
- Updated remotely via cellular download
- Self-contained, compact device
- Reports accelerations above a set threshold
- Map interface of all monitored devices with colored pins
- "Zoom In" to specific devices to get device information, including: date of install, type of device, serial number, maintenance and repair history, picture of device as installed
- Data provided to assist in revenue recovery

Take Control of Your Attenuators

No longer depend on the motoring public to provide the notification. The Sentinel 's immediate alert gets the response team in action.
